26.91%

Retail Growth

In the past decade (2014-2024), retail sales have grown more than \$177 million, creating a 26.91% increase. A 57% population growth over the same time period supports the strength of Broussard's developing retail market.

61,240

Vehicles Daily

Broussard's proximity to the intersection of Interstates 10 and 49, as well as Hwy. 90, is a strategic advantage in transportation and accessibility. With direct rail access, Broussard can be reached easily via Lafayette Regional Airport and the Intercoastal Waterway.

Zero

Property Tax

With no state or city property taxes, building in Broussard certainly has its advantages. We are business friendly, and our electric, water, and wastewater services are among the lowest priced in the state.

\$37 Million

The new state-of-the-art facility, Broussard Sports Complex at St. Julien Park, is built on 122 acres of land and offers youth recreational sports programs and a beautiful community park for everyone. Capable of enticing large sports and entertainment events, this premium facility will provide a tremendous economic impact in the local community and surrounding businesses.

America's Energy Corridor

State Invests \$63.7 Million With Plans for \$150M in Broussard

“This completion of this project marks a crucial step in the plans to transform US 90 into the I-49 South corridor, and it's only a small piece of a much larger vision.”

La. Governor John Bel Edwards

The State of Louisiana's Albertson Parkway widening project in Broussard was completed in August 2019. The \$63.7 million project widened US Hwy 90 from four lanes to six from Albertson Parkway to north of Ambassador Caffery Parkway as part of the future I-49 South corridor. In June 2020, \$150 million was allocated for a future interchange at Ambassador Caffery Parkway and US Hwy 90. These projects are part of the Geaux South program, which is a \$2 billion construction initiative that will turn US 90 into I-49 South, connecting Lafayette with New Orleans. The Albertson's overpass has been completed and the Ambassador Caffery overpass project is approximately 50% complete.

These projects in Broussard are a very important part of the extension of I-49/US 90, known as "America's Energy Corridor" due to the location of many oil, gas, maintenance, and production companies.

With the completion of connected service roads, these new overpasses will provide better accessibility between large retail, dining, and other businesses located along this major corridor.
